(this is only if your pet is not already microchipped) \$61.00

Pet's Name \_\_\_\_\_

Today's Procedures \_\_\_\_\_

Contact Phone Number \_\_\_\_\_

Signature \_\_\_\_\_ Date \_\_\_\_\_

**\*To minimize surgery risks, your pet will have a pre-anesthetic blood screening before anesthesia is administered. If you feel your pet needs additional laboratory testing please let us know (thyroid testing, urine testing, etc.)**

We at **380 West Animal Hospital**, strongly believe in **Pain Management**. If we feel that your pet is in pain and needs medication we will treat them accordingly, this will incur an additional charge (relative to weight) which in most cases includes medications to take home.

If we find your pet to have fleas or ticks while staying with us, we will apply the necessary treatment to ensure their safety and comfort as well as safety of all pets in our hospital areas. This treatment will incur a fee. Thank you for understanding.
